

Tools for Professionals

World premiere!

The marker, that never dries out!

Pica VISOR
Marking with system

Tools for Professionals

Longlife Board Marker

The marker innovation

Pica VISOR comprises an entire writing system, suitable for all smooth surfaces, in particular whiteboards and flipchart papers. It consists of

- + Longlife Board Marker
- + magnetic full size Wiper with 2 microfiber pads
- + magnetic pen holder
- + high performance Gel Crayon for refilling

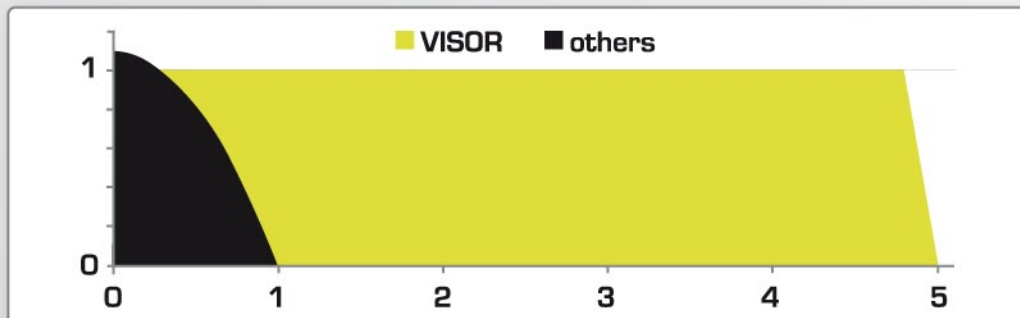

The marker can be connected into compatible wall holders and are always handy.

Drawing fast lines is no problem. Every line shows full color performance – even on paper.

Pica VISOR can instantly be used and also wiped off. A professional Wiper with removable and washable microfiber pads makes the writing system complete.

The writing system of Pica VISOR defines a new standard for durability as well as sustainability. The refills do not contain any solvents, there is no unpleasant smell, and they cannot dry out. A newly developed rotary mechanism makes changing of refills easy and very fast. Dry wiping of the whiteboard will be simple, clean and without fine dust.

Get ready for a smooth writing experience with the new Gel Crayon.

Never dries out!

Offers full performance up to the very last line. The high performance Gel Crayon lead of Pica VISOR writes up to 5 times longer than regular marker.

ONE FOR ALL

Gel Crayon for meetings and for industrial use. No more wrong use of whiteboard and flipchart marker.

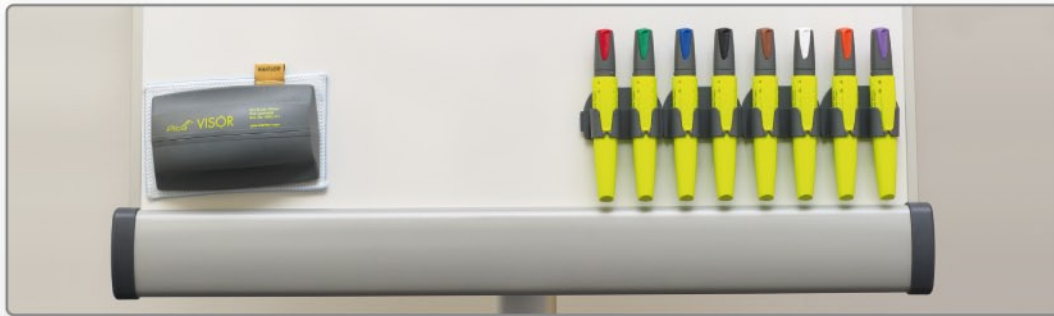

Dry erasable with professional Wiper

A magnetic Wiper is always at hand for large scale eraser of all smooth surfaces without effort.

Tools for Professionals

Longlife Board Marker

Kept in view rather than searching

Marker and Wiper are always where you want them to be – right on your whiteboard in magnetic wall holders. They can be connected and multiplied as often as you like.

No unpleasant smell and dust free

Leads are solvent free and suitable even for people with allergies. Available in 8 colors.

Microfiber pads

With high load capacity. Color particles are bound in a wax base and will be absorbed completely by the pad. The result: no breathable dust and an always clean whiteboard. Every full size Wiper is provided with 2 microfiber pads.

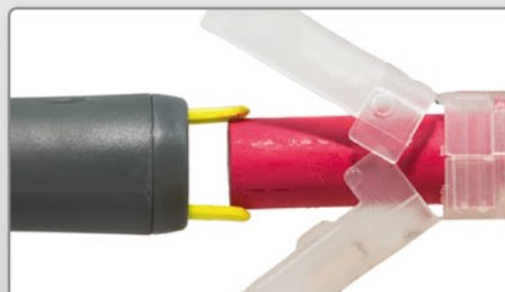

Simply washable

Color particles are completely water soluble even under cold water. Fix the second dry pad to your Wiper and continue working immediately.

Easy Refill Pack

4 extra leads in an Easy Refill pack can be carried breakage free. Choose next to the assorted main colors between 8 bright colors.

Docking without contact

Wide opening wing covers provide for a safe standing of the lead box. Turning the rotary mechanism of Pica VISOR to the final position opens a pair of tongs for simple, fast, and effortless docking of a new lead without hand contact.

Tools for Professionals

Longlife Board Marker

Strong for industrial use

The new Gel Crayon offers high writing performance and marking of many different materials.
